HO VAN TOAN

 github.com/hvantoan linkedin.com/in/hvantoan it.vantoan@gmail.com

SKILLS

- **Programming Languages:** C#, JavaScript & TypeScript
- **Frameworks/Platforms:** .NET Core/MVC, ReactJs, NextJs, Redux, Tailwind CSS, MUI UI, Shadcn, Blazor
- **Databases:** SQL Server, PostgreSQL
- **Tools & Processes:** Git, CI/CD, Docker

EXPERIENCES

CONG TY CO PHAN VIETINFO — Fullstack developer | *C#, ReactJS*   June 2022 — Now
Project: Internal Chat Project (4 members, 1 front-end, 1 back-end, 1 mobile)

- **Description:** A web application that enables departments to communicate, manage, and assign tasks. It supports over 200 concurrent users and integrates with APIs of other company products.
- **Technologies used:** C#, .Net Core, SQL Server, ReactTS, Material UI, Tailwind CSS
- **Responsibilities:**
    * Develop a web chat feature with responsive design, optimized for all devices.
    * Analyze requirements from the Project Manager (PM) to build and integrate APIs from other company products.
    * Ensure system stability to support over 200 concurrent users.

Project: QLVB Project (8 members, 3 front-end, 2 back-end, 3 mobile)

- **Description:** A CMS website that provides robust features like version control, secure access management, and audit trails to streamline workflows for managing a wide array of documents—including digital signatures, invitations, administrative paperwork, and more—while ensuring compliance and data integrity.
- **Technologies used:** C#, .Net Core, SQL Server, ReactTS, Devextreme, Bootstrap
- **Responsibilities:**
    * Maintain and enhance the CMS website to ensure optimal performance and functionality.
    * Resolve issues related to document and user workflows for a seamless experience.
    * Collaborate with the back-end team to develop new features based on client requirements.
    * Discuss improvements with the team to optimize the platform's functionality and strengthen its security features.
    * Refactor code from ASP.NET Web Forms to ReactJS to modernize the CMS, improving performance and scalability.

FMS Project — Fullstack developer | *C#, NextJs (Freelance)*   January 2022 — Now
Team size: 12 members, 2 back-end, 3 front-end, 2 mobile, 1 BA, 3 Tester, 1
